Jonathan Brady
Principal

Surinder Brar
Vice-Principal

"EDUCATION . . . OUR FUTURE"

MISSION STATEMENT

Our mission is to foster the development of individual potential in all students. The staff of Barriere Secondary School, with the support of the community, will provide experiences that promote the development of healthy, responsible individuals in activities which enable students to acquire the knowledge, skills, and attitudes needed to contribute to the well-being of our changing world.

SCHOOL PHILOSOPHY

The staff of Barriere Secondary School subscribe to the mission and goals established by the Ministry of Education and the Board of School trustees of school District No. 73 and further wishes to emphasize our belief that:

The acquisition and application of knowledge and skills and the development of positive personal and social attitudes are essential for the development of mature, well-rounded and responsible citizens.

Student success occurs in a challenging and co-operative environment. Our educational priorities are reflected in a comprehensive program of broad-based, positive learning experiences.

Education is a responsibility shared by government, community, school, student and home. We strive to maintain open and ongoing communications with all our partners as our success is based on working together.
